New Worlds, New Horizons

That's right ... new worlds and new horizons with Social Sciences! It's unbelievable all the classes this department of Histories and Humanities offers! Traditional and required classes still grind on ... like Geography (6) with its maps, charts and city planning; U.S. History (1) where students occasionally find themselves interested in what is discussed in class, regarding the history of America.

But now ... now there are new classes with their own twist! Contemporary U.S. History (3) which is self-explanatory; you study the problems and changes that America is going through right now; An-

thropology (5) where students study the origin (and early artifacts) of man; Sociology (8) for those people who want to study the human society (case in point!); Comparative Religions (2) offers interested students the chance to study and compare the religions of the world; and the most popular Humanities class of all, Psychology (7) where students study (enjoyably) the why's of human behavior and ... who would YOU trust to lead you blindfolded down a flight of stairs? Last but not least, is Youth and Society (4), where students study and discuss with each other the role youth plays in modern society today.

It's been a busy year for the musically inclined students here at Workman...

Award-winning Drum Major Dale Edwards has led the Lobo Marching Band through countless parades and competitions; (and even *more* numerous are the millions and millions of practices and rehearsals!); supported wholeheartedly by the Loboettes (Tall Flags, Shield Carriers, Flagtwirlers), and of course, Mr. Bullard, who's energy and perseverance seem inexhaustible.

Concert, or as they are better known around campus, Stage Band, has been busy, too, with concerts, Jazz Festivals, and assemblies. The hard work of all these students has its rewards, too... the Tall Flags had received a second place award for their fine performance at a Miss Drill Team U.S.A. competition during February, for instance, and the rewards for others goes on...

They really deserve the thanks of the whole student body, don't you think?

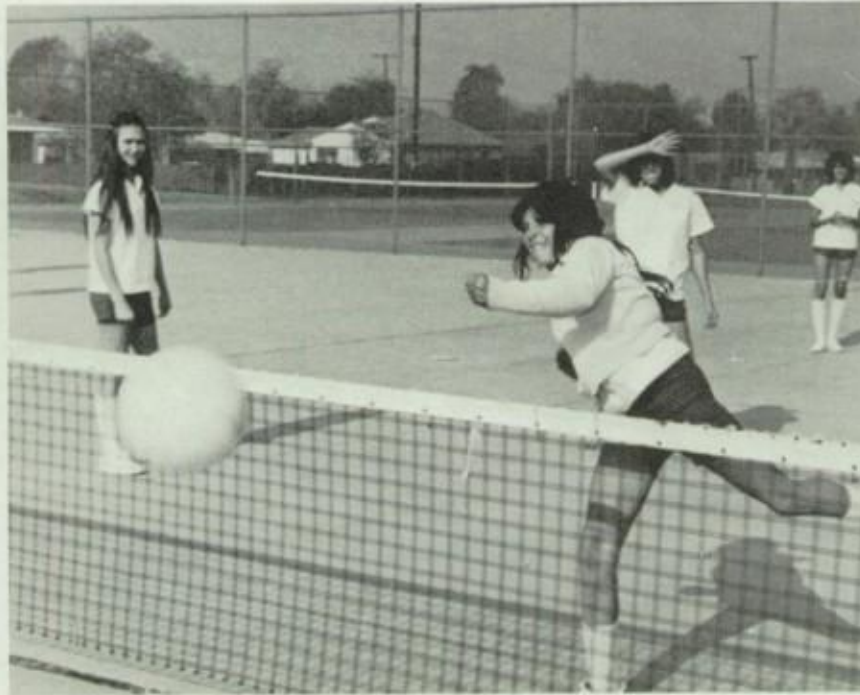

# Take a Break With P.E.

Seniors Faith Kerlegon, Linda Pernell take the half lotus meditation position in Yoga, a P.E. elective.

Tiny, but mighty, Madeline Lliteras, with her teammates Jackie Goslin and Sue Netherton in background, socks the ball over the net for points in Volley tennis.

Tuckered out, sophomores run the hills daily for exercise in physical education class.

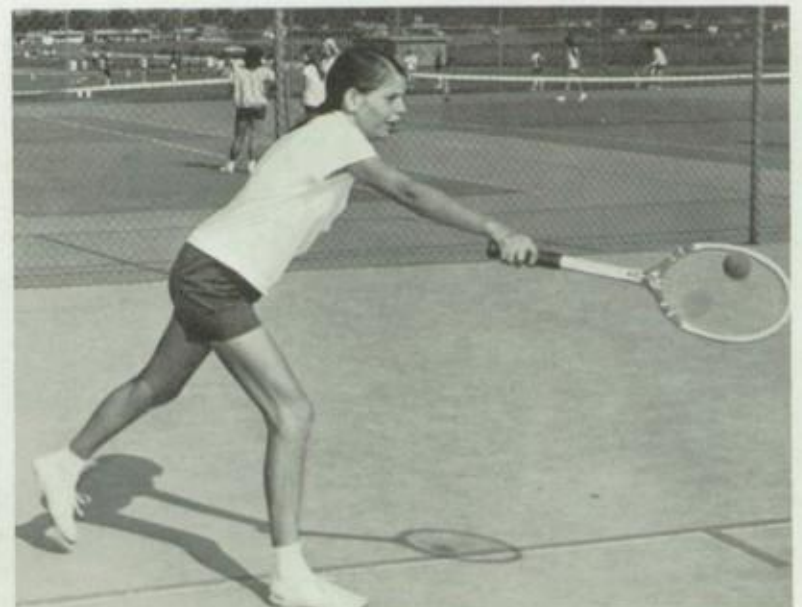

One lone freshman assists his team by anticipating a spike in the volleyball game.

"Promenade home" rings through the gym as the girls follow the intricate patterns of their square dance routine in Folkdancing.

James Nielson takes over in Soccer practice as he moves the ball down the field.

A smooth backhand is shown by Ila Ross as she returns the serve.

# Home Ec. Offers a Taste of Economics From Foods to Family Affairs

Home economic courses offered at Workman have students try their hand at domestic talents which include everything from Sewing to Consumer Foods (comparing home-made to commercially prepared foods). Family Affairs, too, offers different aspects of family life for examination.

"Men's liberation" has moved in on Home Economics, too! Now more than ever, guys are getting into cooking classes, and a few can be observed making Hawaiian print shirts in various sewing classes, too.

Don't forget Nursery Education!! That explains all those little kiddies seen running around campus from time to time. It gives students the chance to work with small children; helping them to adjust and enjoy being with other children... giving them a taste of what the start of their elementary education will be like.

In Family Affairs the class has many discussions on such topics as marriage, family relations, and reproduction.

Denise Ernst places her pattern on the material in Sewing II, hopefully.

In Sewing I Diane Dauk stops sewing to figure out what she does next.

Mrs. Witt checks Jenny Hughes and Richard Cuevas in Consumer Foods.

In Creative Clothing Terry Duarte hems up her jacket for the final finish.

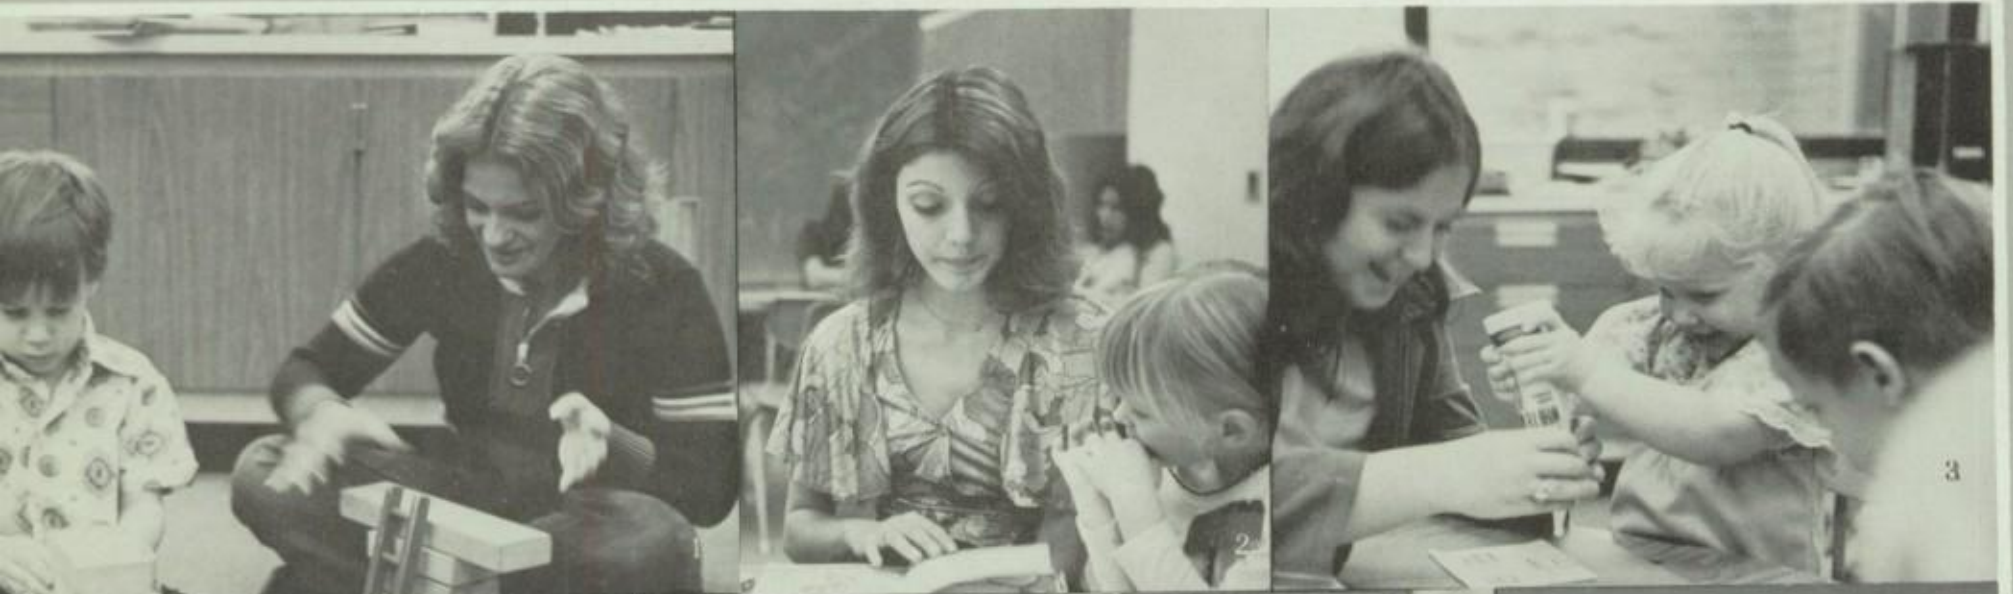

In Sewing II class Mrs. Scheuring checks Cathy Umbrello's latest garment.

Sharon Thompson and Scott Butcher checks their cinnamon rolls in Home Ec. I.

# *Want to Be a Kid Again? Take Nursery Education*

Nursery Education is a course designed to train students for entry level in a pre-school.

The curriculum includes the study of pre-school children and the organization of a nursery school here on campus. The requirements include forty-five hours of experience in local nursery schools.

The class also offers fun for everyone. Students may get involved in playing with blocks (1) or gluing things together (3,8), or other various activities included in the curriculum of the class (2,4,5,7).

Then, as the class comes to an end, the inevitable happens, the mother comes to pick up her child.

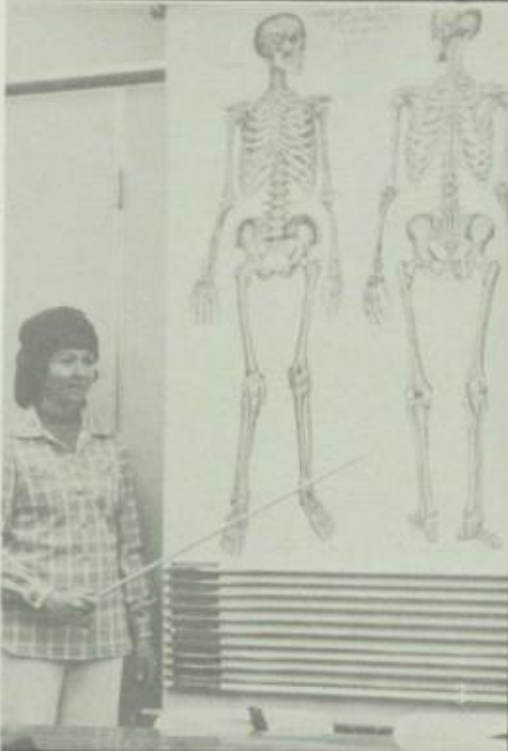

Vocational Nursing is an oriented class, designed to develop in students the performance of basic nursing skills, understanding of the nurses aide role in the nursing team, knowledge of body structure and function food services and recordkeeping as a health service.

The class is offered for two periods so they can go to hospitals, clinics, and rest homes on Tuesday, Wednesday, and Thursday.

# Workman Art Classes Offer- Fun, Skill, and Creativity

Art classes seem to provide the creative outlet for students wishing to express their artistic and creative abilities.

Offerings include everything from Basic Drawing and Painting (1,8) for budding young artists learning the basics; to Ceramics (2,4,13) for those who wish to go beyond the sketchpad and paint easel for creative expression.

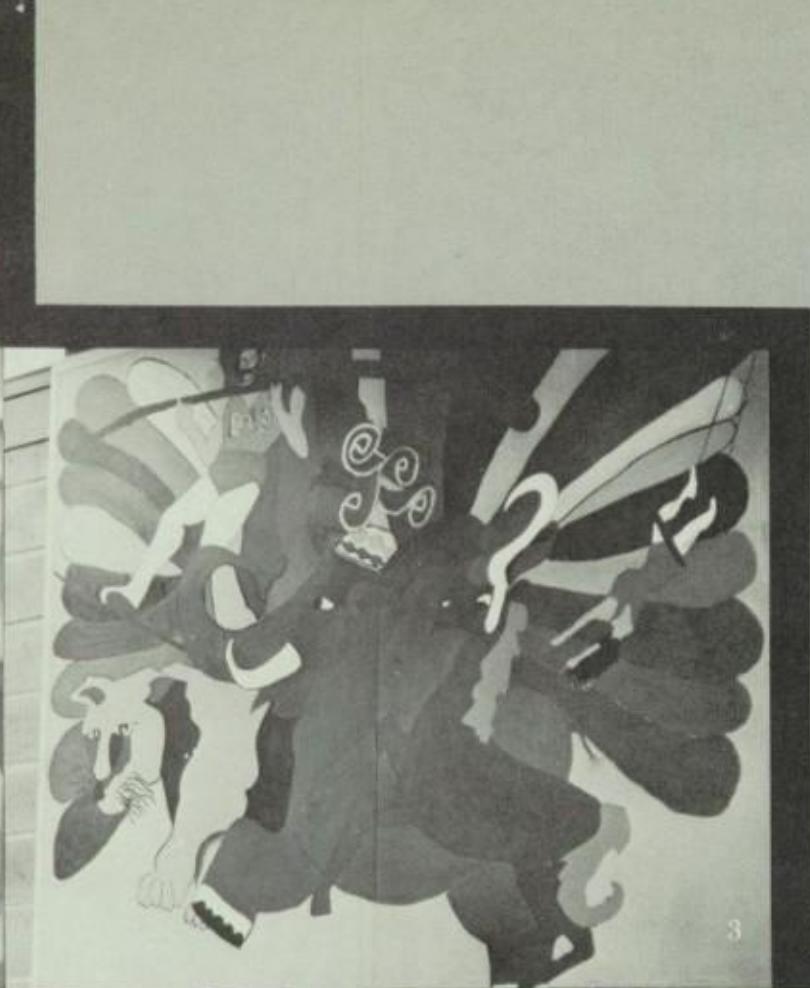

3-D Drawing (6) offers students with an eye for perspective and detail expression for their keen talents; while Intermediate Painting (9,10,11,14) means putting hard work, unique painting abilities, and painstaking accuracy (9,10,14) all together for a "Great Fakes" painting display in the Library alongside some fantastic originals too.

Then, of course, there are the room projects (3, 15) designed to add life and interest to otherwise bare walls and empty windows ... or the chance to have classroom assignments pegged up on the bulletin boards to compare styles and techniques (12).

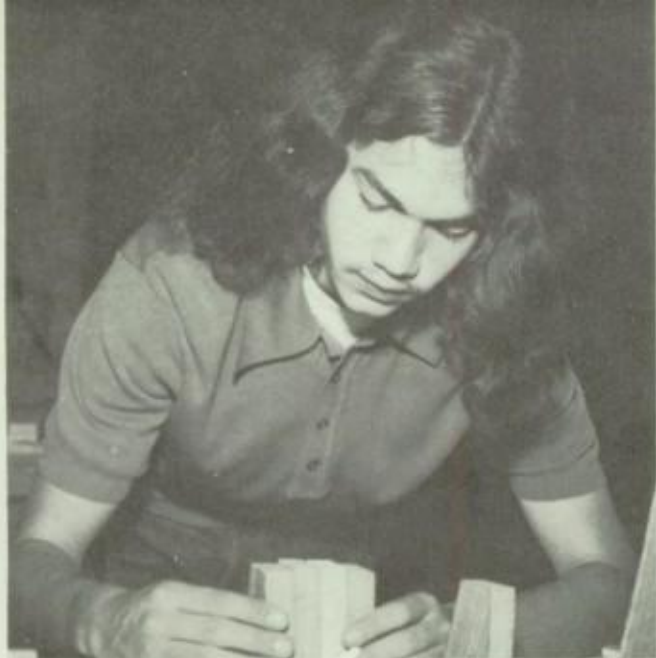

For those interested in scripts and prints, there's Lettermaking (7), and last, but certainly not least; Cartooning (5) for those who prefer to make and watch their own cartoons ... it's the real thing!

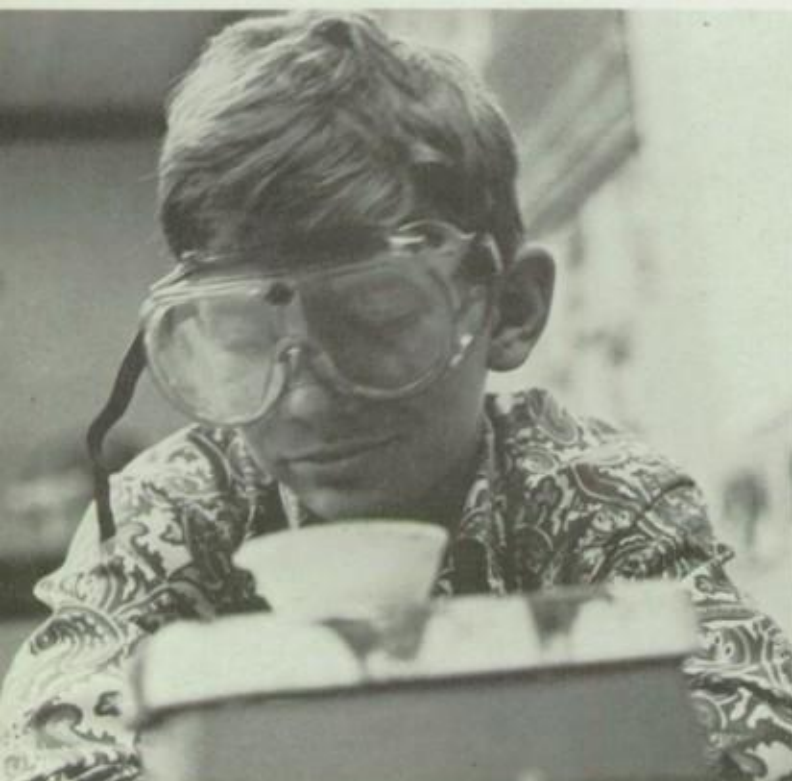

Bengie Patterson studies wooden blocks carefully for exact alignment before gluing and putting in a vice for his Wood Shop project.

Lawrence Bruce grimaces at the thought of having a project disaster as he watches over his hot plate in Power Mechanics.

# *Interest in Industrial Arts Can Lead to Career Choices in Many Futures*

Industrial Education helps many students to learn the basics of the Industrial Arts, which offer the different kind of class variety students enjoy and look forward to. Skills acquired may help students to decide on a future vocation or career such as carpentry, Electronics engineering, draftsman, mechanics and a host of other prospective looking careers.

Tom McGowan looks almost exasperated after being unsuccessful at working that puzzling machine, which friend Tom Marino decides to try his hand at in another phase of Power Mechanics.

Richard Grossman works hastily to get his type set up for his Graphic Arts project.

Dan Means is too wrapped up in balancing a wheel to notice involved onlookers, Duane Koch, Pete Ortiz, Dan Hebert, and Steve Morales.

Mysterious student works diligently on a mysterious metal block, with pliers and a soldering iron in Metal II.

With the helpful observations and advice of Kenny Henry, Bobby Ferguson adjusts the Box and Pan Break in Metal I.

# Gaining Experience in Business Ed Provides Good Background for Future Office Workers

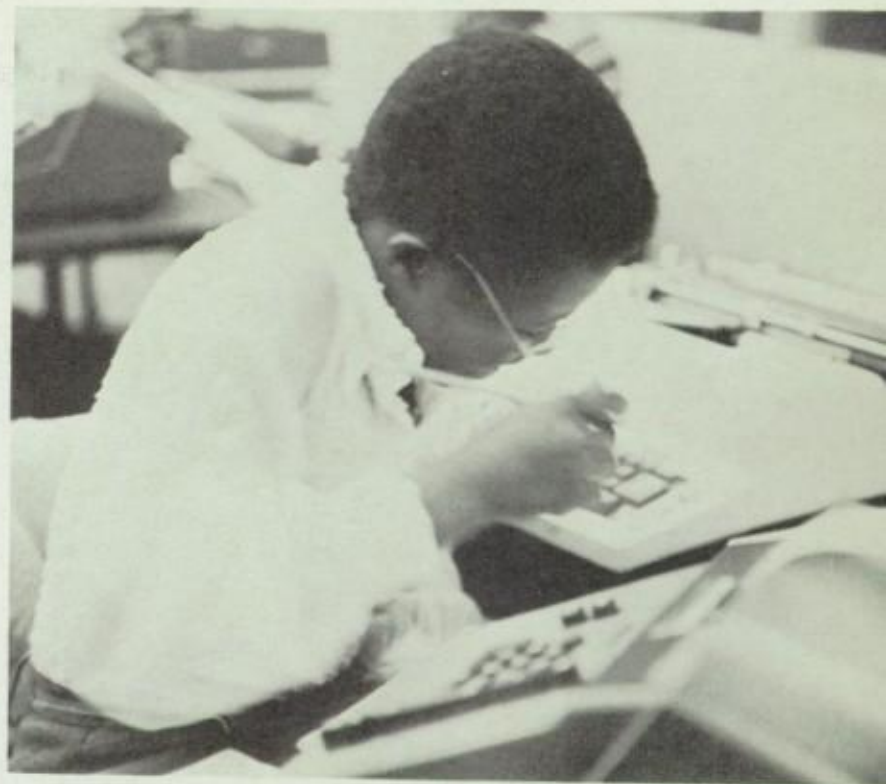

Cindy rechecks her margin stops carefully before starting her timed writing in Typing I.

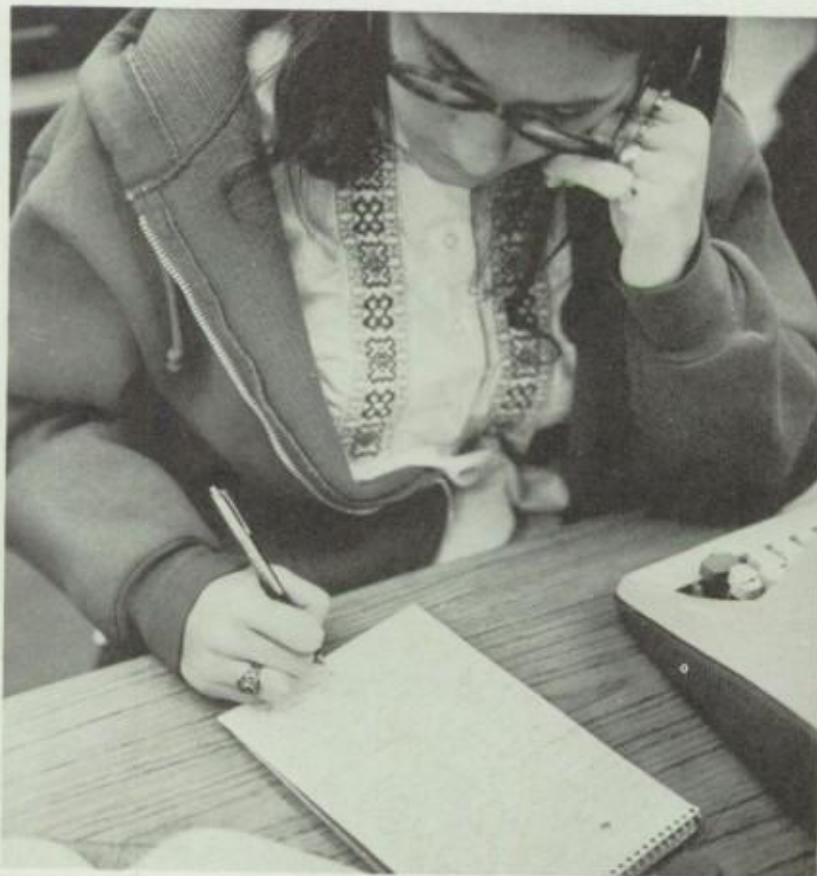

Julie Hall pays particular attention to every word as she types up a classroom assignment in Typing II.

Business Education is just what the headline implies . . . it prepares students for the business career of their choice or helps them decide if a business future is what they really want out of life.

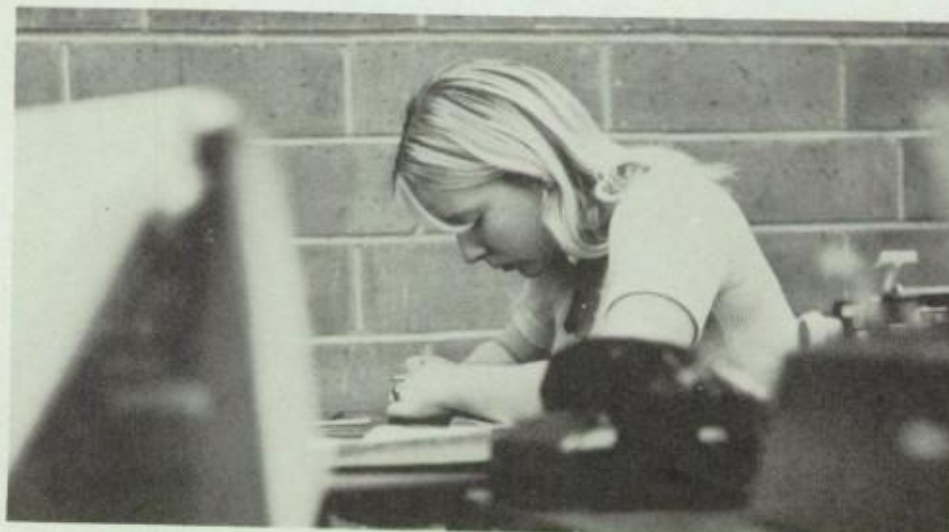

In Office Machines, Frances Howard goes over the totals and subtotals on her adding machine tape.

In Shorthand I, girls like Judy Barnhouse take down dictations in Shorthand script.

In Office Machines, Judy Splawn busily types up a reply to a business letter, simulating the type of work done in a secretarial career.

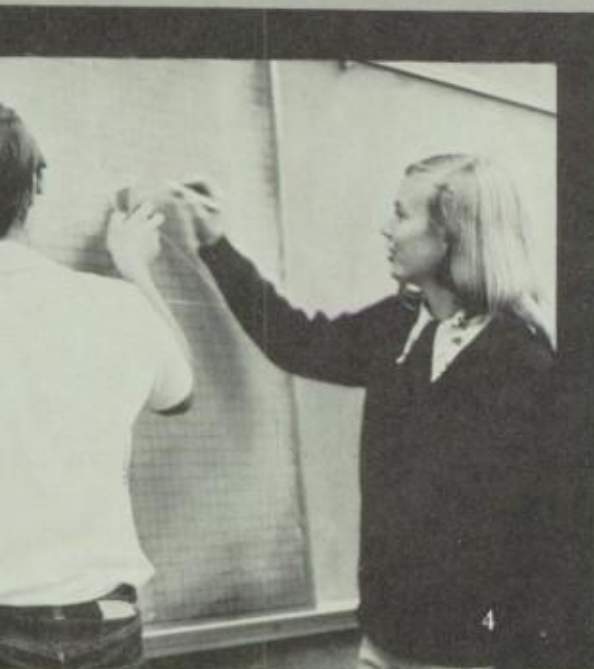

Mindi Henkel uses a great deal of concentration and precision as she carefully stencils an alphabet to be used later for running off dittoes.

# *Lobo's Expand Knowledge Through New, Traditional Sciences*

Fantastic! The worlds that science classes at Workman open up for students are unbelievable! You explore everything from basic experiment procedures to human anatomy to the intricacies of Physics. For the nature enthusiast, there is Biology, (pictures 3-6-7-8) in which you become acquainted with tiny microscopic inhabitants of the animal kingdom, create your own terrarium—a garden for everybody to see, discuss lab experiences and hustle to finish up the assignments after school.

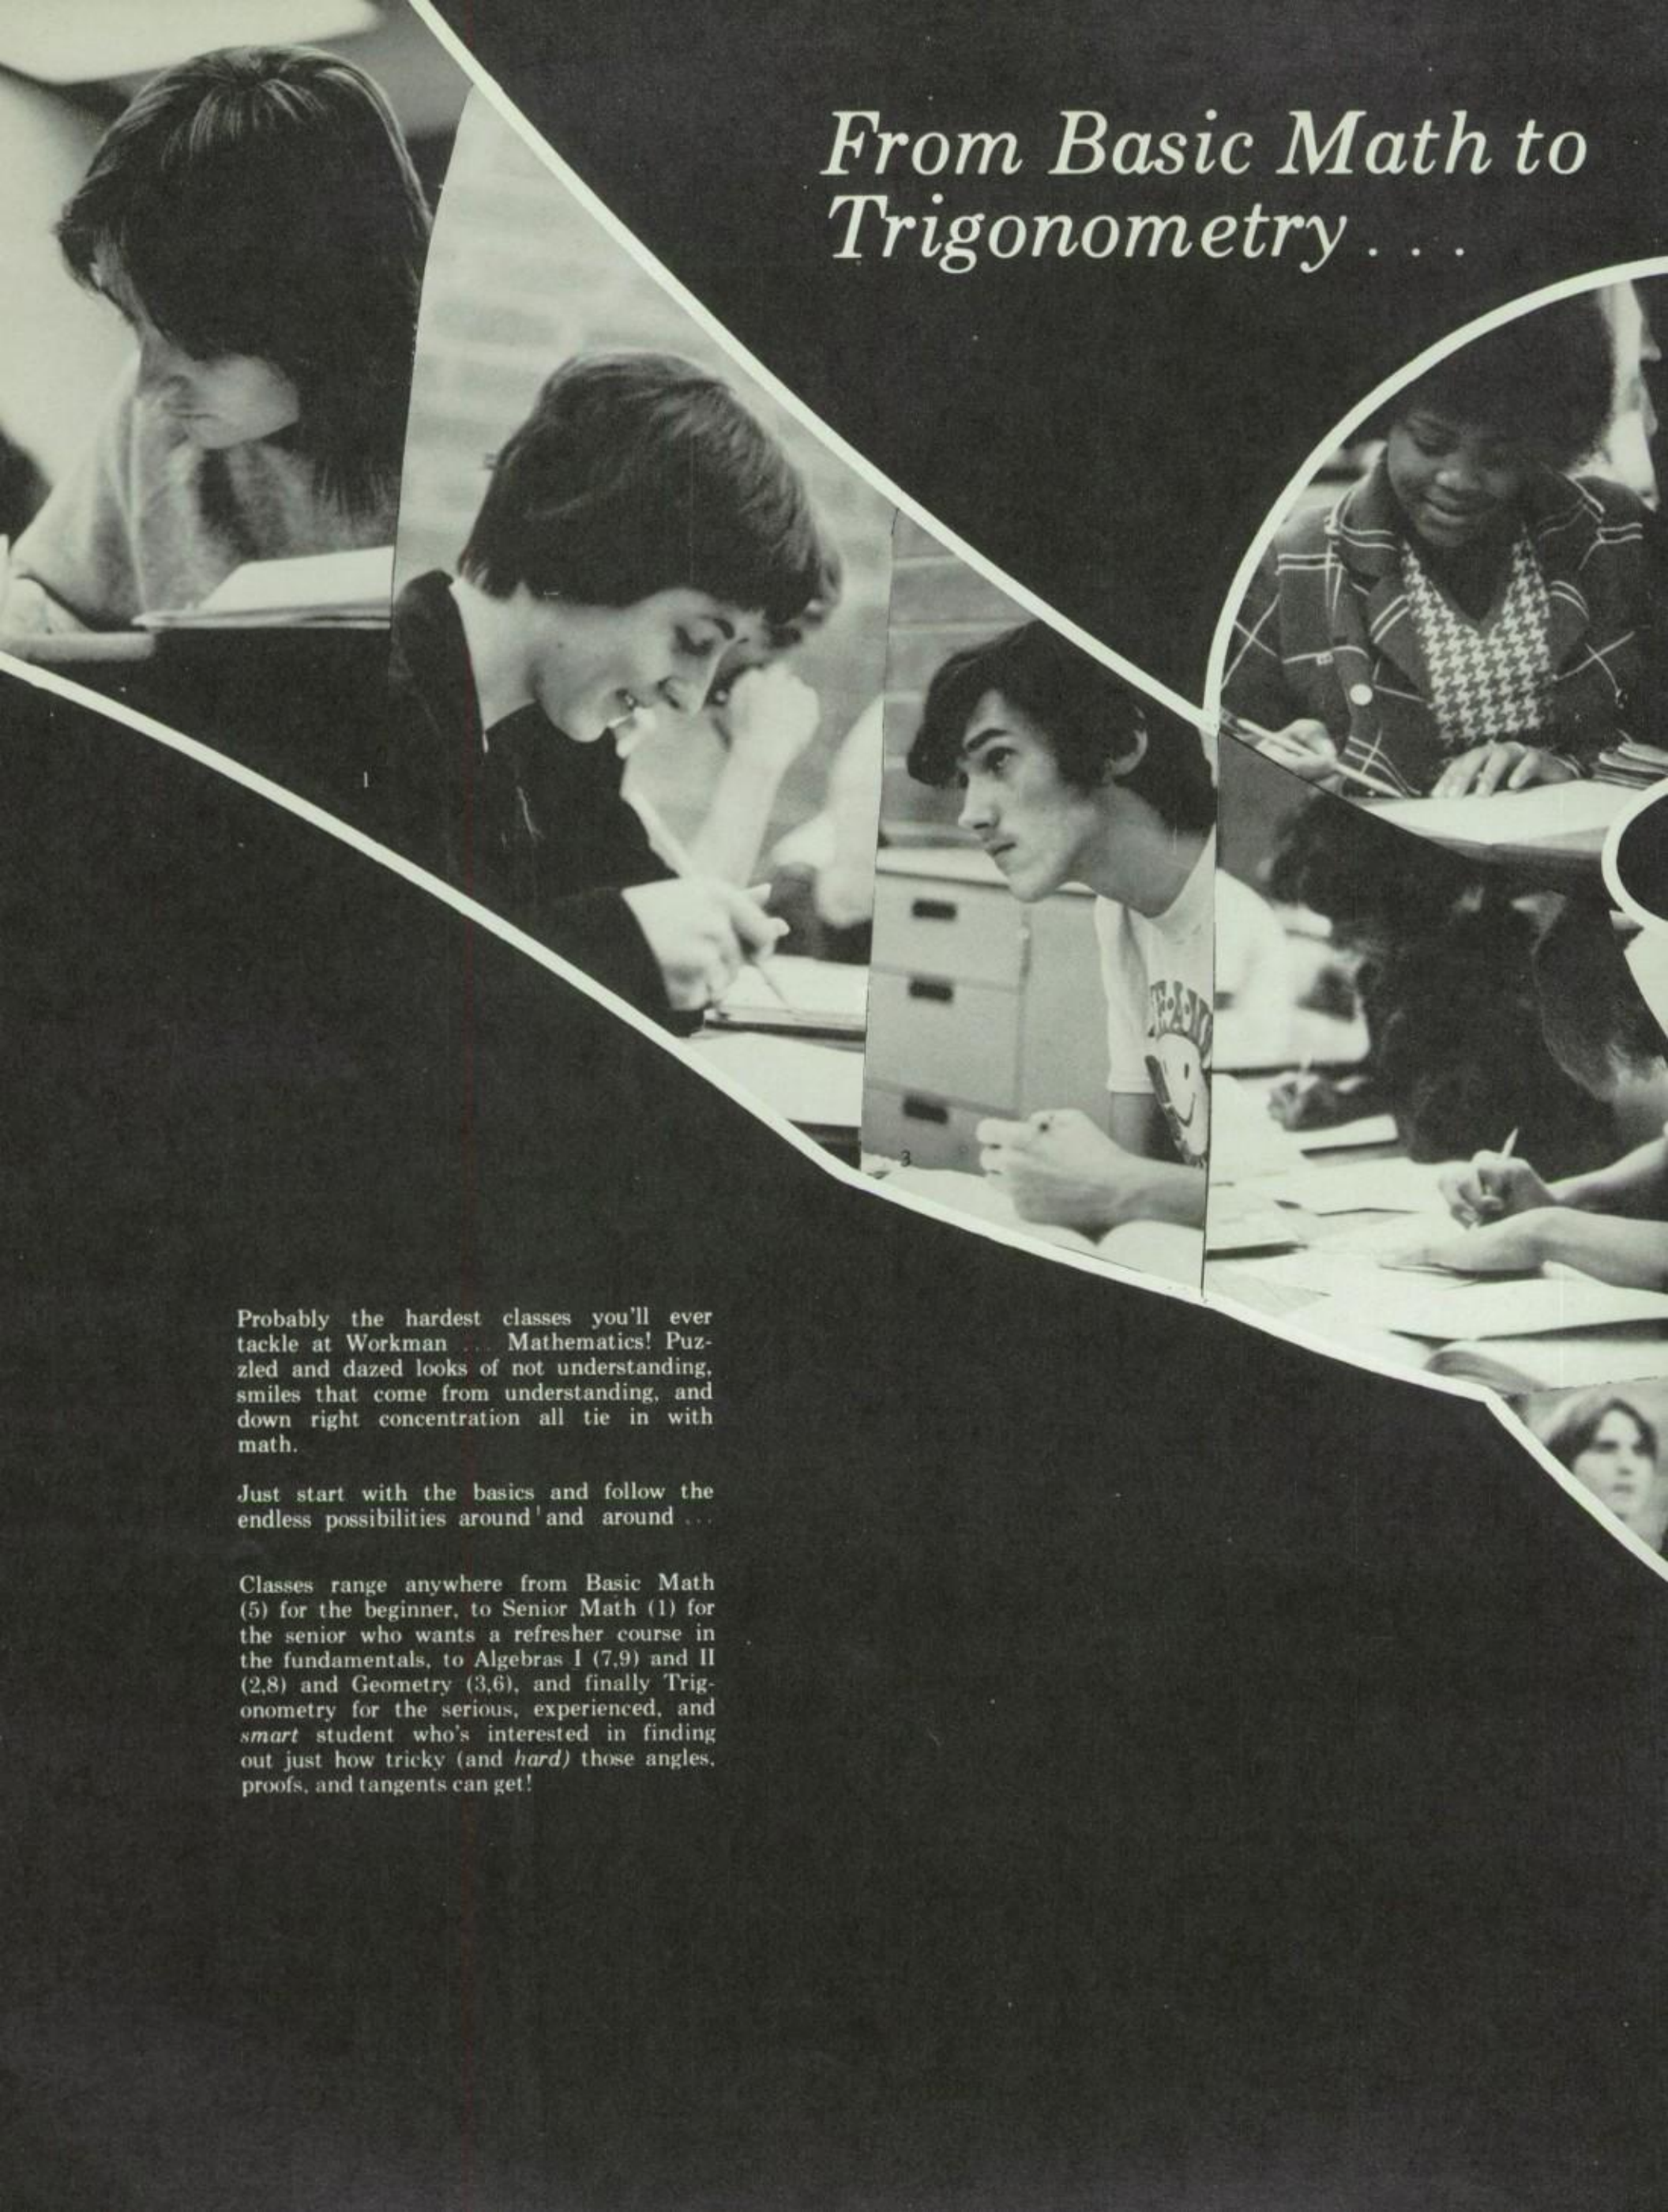

For the ecology minded, Man and His Environment (picture 1) enables curious sophomore minds to observe man-made solutions and pollutants and their effect on the world they live in. Through this class, the tenth graders get their first taste of basic experimentation on a high school level. They also come into contact with the hard-working, but humor-loving science teachers.

Chemistry (pictures 4-5-10) is translated into chemical experiments, comparing results with data charts, and learning the hardest lessons of all—carefulness and accuracy.

The contrasting aspects of science are found in studying Science and the Human Body (picture 9) and the study of the physical properties of today's world (picture 11) in Physics.

# *From Basic Math to Trigonometry . . .*

Probably the hardest classes you'll ever tackle at Workman . . . Mathematics! Puzzled and dazed looks of not understanding, smiles that come from understanding, and down right concentration all tie in with math.

Just start with the basics and follow the endless possibilities around 'and around . . .

Classes range anywhere from Basic Math (5) for the beginner, to Senior Math (1) for the senior who wants a refresher course in the fundamentals, to Algebras I (7,9) and II (2,8) and Geometry (3,6), and finally Trigonometry for the serious, experienced, and *smart* student who's interested in finding out just how tricky (and *hard*) those angles, proofs, and tangents can get!

The year of 1973 found the Lobo Varsity finally putting things all together as they "cupped" their first championship in the school's history with a 5-2 record. Coach Bob Green led the Lobos to a 4-1 record before losing to Rowland in the game for sole possession of first place. The Lobo's CIF hopes were shattered when a coin flip ruled that Baldwin Park and Rowland would represent the Montview League.

(6) Varsity harrier, Randy Wheatley completes the rough course with a strong finish.

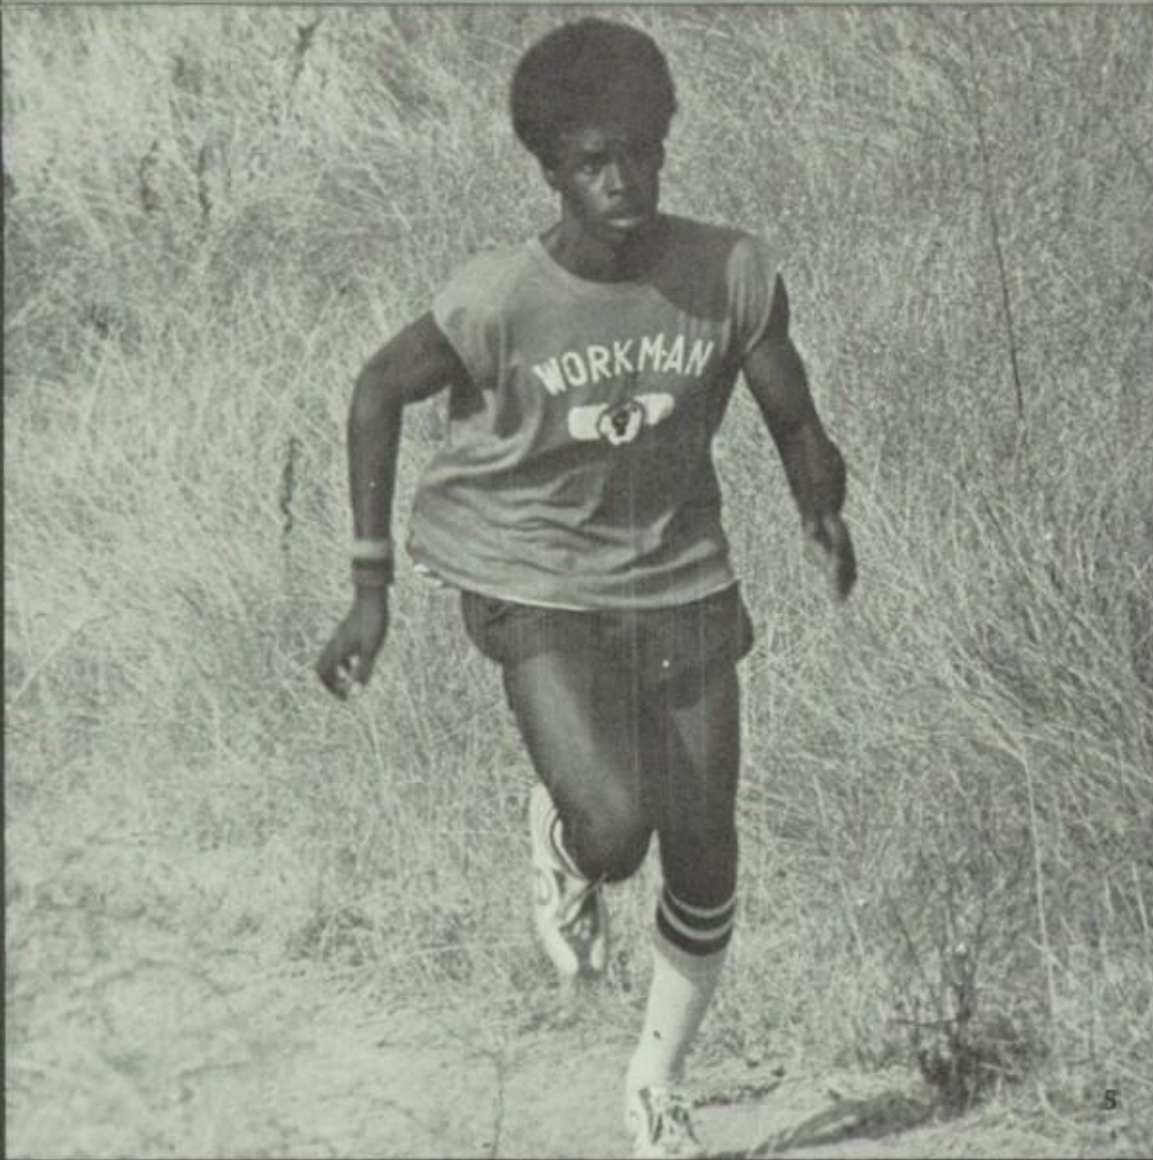

(7) Taking time-out from a busy season are two Lobo runners.

(8) Discussing the possible difficulties of an away course are Coach Dave Shirley and Varsity harriers.

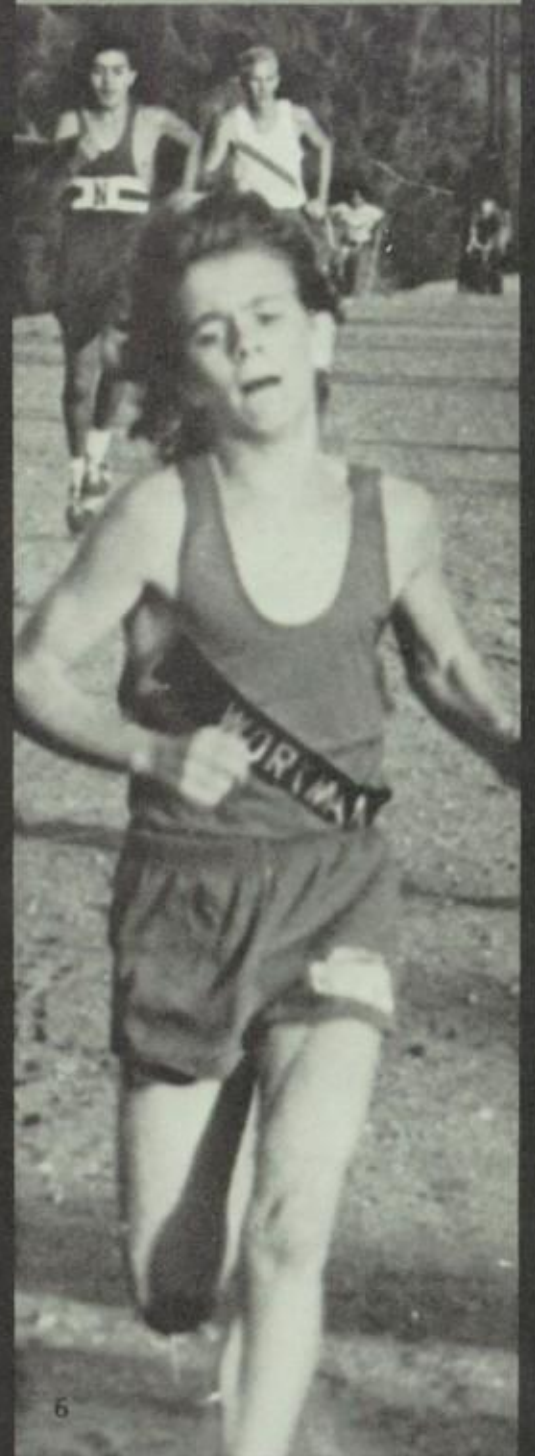

The Varsity harriers although their pride, determination and courage kept them going throughout the season, failed to gain the Montview League Championship. Out of eight meets, the team managed to win two. Cipriano captured the All Valley Title, which means that he's the best runner in the Valley.

Pride, spirit and talent-the characteristics of Lobo teams-not just ordinary teams, but teams which represent WHS in times of victory and defeat.

It is  
 ... football teams scoring a touchdown  
 ... basketball teams "sinking" a basket  
 ... volleyball teams "spiking" a point  
 ... cross country teams "claiming" a meet  
 ... baseball teams "shutting out" opponents  
 ... tennis teams "smashing" a match  
 ... softball teams "stealing" a base  
 ... WHS at its BEST!

## April Finds Varsity With 3-0 Record

This years Varsity baseball team included: (BOTTOM ROW, LEFT TO RIGHT), Pete Etchebarren, Paul Kasper, Rod Barker, Martin Pearce, Marty Reitz, Bruce MacDonald, Ron Bures, (TOP ROW, LEFT TO RIGHT), John Sirola, Bill Mousseau, Ernie Celaya, Steve Eckmann, Dave Buckle, Barry Cramer, Joe Castner and Coach Russ Smith.

This years Lobo Varsity team not only has pitching talent they also have a talent in batting. Errors seem to have a great influence in the out come of the game as demonstrated when the Lobos met Royal Oak and errors proved costly to the Romans. Baldwin Park experienced the feeling of defeat as the Lobos thumped them, 7-4. Bruce MacDonald and Bill Mousseau hit homers. Joe Castner knocked in three RBI's with a two run homer and a sacrifice fly.

By throwing a three-hitter, for his second league win, pitcher Bill Mousseau collected another win for the Lobos as they downed the Charter Oak Lancers, 5-1.

Dave Cuthbertson and Kevin Chapman, J.V. pitchers, both pitched "no hitters" in pre-league play.

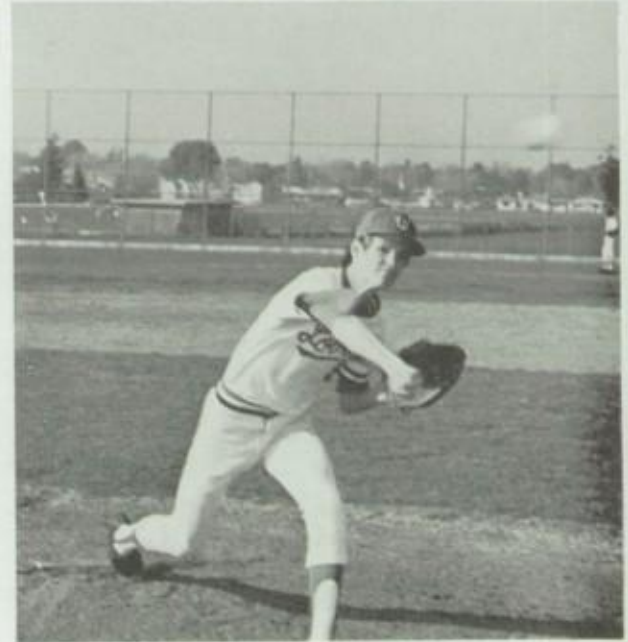

Cuthbertson "struck out" nine Los Altos players and allowed only two walks to claim a 1-0 victory.

Chapman allowed five walks and "struck out" 13 batters against Pomona to chalk up another win, 7-0.

The Junior Varsity team are proud of their defense as they have committed only one error in their past 14 innings.

# G.A.A. Changes to G.A.L.S.

ROW 1 (LEFT TO RIGHT) Diane Purvis, Joette Beatty, Annaliz Hernandez; ROW 2 (LEFT TO RIGHT) Marilyn Achbach, Sandy Evens, Barbara Thaller, Joan McCormack, Lupe Robledo.

The Girls' Athletic Association started off the year with a new club, the Girls' Athletic Letter Society, (G.A.L.S.)

G.A.L.S. is now the governing body of the G.A.A. Led by its three officers and the advisor, Miss Myers, G.A.L.S. plans trips and organizes fund raisers for the club.

To become a G.A.L.S. member, a G.A.A. member must earn 15 credits. She then receives her letter and, after earning 20 points, she earns the G.A.L.S. pin for G.A.A. sweater wearers.

Girls making varsity teams receive three credits per sport, an emblem for that sport and also a varsity pin. JV players receive 2 credits and an emblem. The G.A.L.S. officers can earn extra credit for every semester they are in office.

The first sport of the year is volleyball, followed by tennis, basketball, softball and badminton.

Next year G.A.A. will be moving into the same league as the guys. They will compete against the Montview League G.A.A. CIF.

G.A.A.'s special thanks goes to the advisor, Miss Myers, and to the coaches, Miss Graves, Mrs. Dice, Mrs. Bowers and Mrs. O'Cain. Best of luck to the G.A.A. in 1974-75.

# *Workman High Reflects Students and Their Activities*

This year's assemblies and rallies were a display of time, energy and talent as well as humor. Cheerleaders put on skits and stunts — such as pie-in-the-face routine and dirty-old-man-kissing-the-fair-young-maiden — to promote spirit.

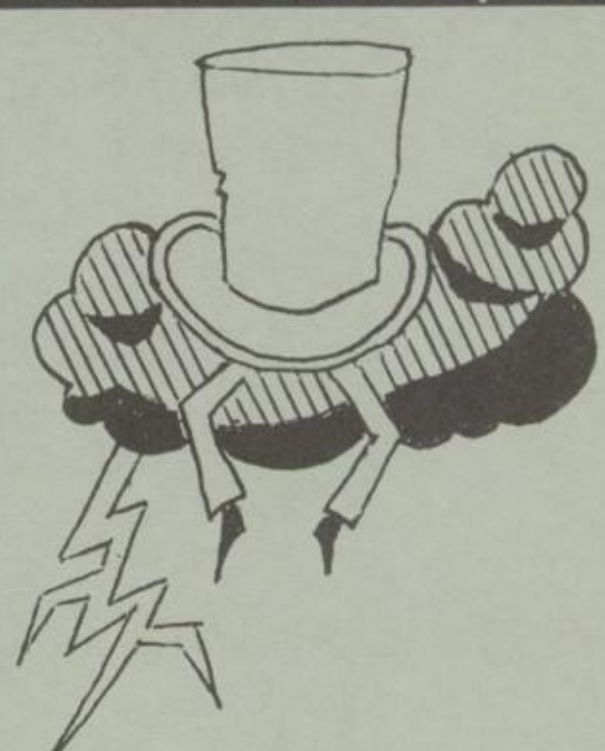

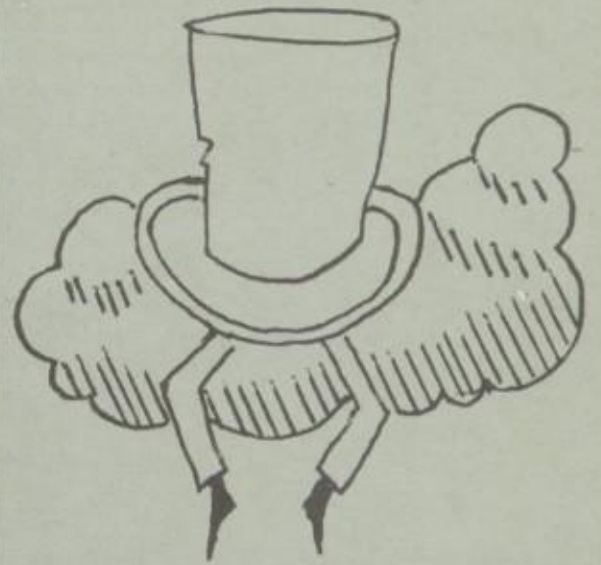

At the Christmas assembly the Lobo Sounds presented an excellent performance along with the WHS Choruses. Both groups sang a selection of Christmas music, that illustrated varying shades of the celebration. Added to this was the newly-formed group "AGAIN", which rendered "Silent Night" while Rick Campbell narrated a "six o'clock news cast." The two — hymn and depressing everyday news events — combined for an interesting contrast. The closing moments again featured the WHS band playing jazz and instrumental music. To top it off, Santa appeared in the bleachers.

"Bueno", a rock group, appeared on the Workman campus at lunch hour and drew quite a crowd of listeners. Finally, it can be said that WHS Assemblies and rallies, through student effort and participation, have been successful.

A black and white photograph of a young man with long, straight hair, looking upwards and to the right. He is wearing a light-colored, possibly white, shirt with a dark belt. He is holding a large, dark, rectangular object, which appears to be a book or a portfolio, in front of him. The background is a plain, light-colored wall.

## *The TOP TEN*

In every high school there are those students who stand above the crowd, who somehow seem to march to a different drummer, a drummer that drives them to know more to question more insistently, to wonder more daringly. These students are recognized not just by teachers but by their peers - those who work as their lab partners, who follow them down the court, who listen in wonder to the questions they ask, who receive their help, who profit by their daring. The first step in choosing these ten seniors to receive the coveted Top Ten statuette begins in each department of the school; names are submitted by department chairmen and teachers. The ballot is next presented to the seniors who vote on the names, remembering and rewarding with their votes. Grade point averages are checked, decisions are made (numbers 11 and 12 always present a problem.) The list is finalized; the statuettes are ordered. Graduation finds ten seniors who stand before their classmates — stand with pride, are regarded with pride —

*Service to others* marks this year's *Top Ten* ... they served as Class Officers, as ASB Secretary and Treasurer; as ASB President and Vice-President ... they helped out as Chatelaines and Key Club members and Lettermen ... they planned layouts, wrote articles, dreamed up editorials for *The Surveyor* ... they ran assemblies and planned conventions ... they attended meetings on constitution revision and partnership schools.

*Diversity of accomplishments* marks this year's *Top Ten* ... they played football and led cheers ... they moved from basketball courts to German class ... they played in Lobo bands and sold candied apples and wrote minutes for hundreds of meetings ... they carried the Workman name to the campuses of Mt. SAC and UC Davis and Texas.

*Down to earthness* marks this year's *Top Ten* ... they laugh at their own mistakes and learn from them ... they forget to turn in senior register sheets or have their pictures taken ... they play the game and lose or win with equal grace ... they take pride in honor roll status and senior privileges ... they take on a job and quietly complete it ... they take pride in being a Lobo of Class of '74 ... *A Lobo Top Ten.*

A black and white photograph showing a large, stylized flower sculpture in the foreground. The flower has several broad, pointed petals and a dark center. It appears to be made of a light-colored material, possibly paper or fabric. In the background, two people are standing near a doorway. The person on the left is wearing a dark jacket and a hat, and the person on the right is wearing a dark jacket. The scene is set outdoors, with a doorway and a wall visible in the background.

# THANK YOU

## You've Been So Nice

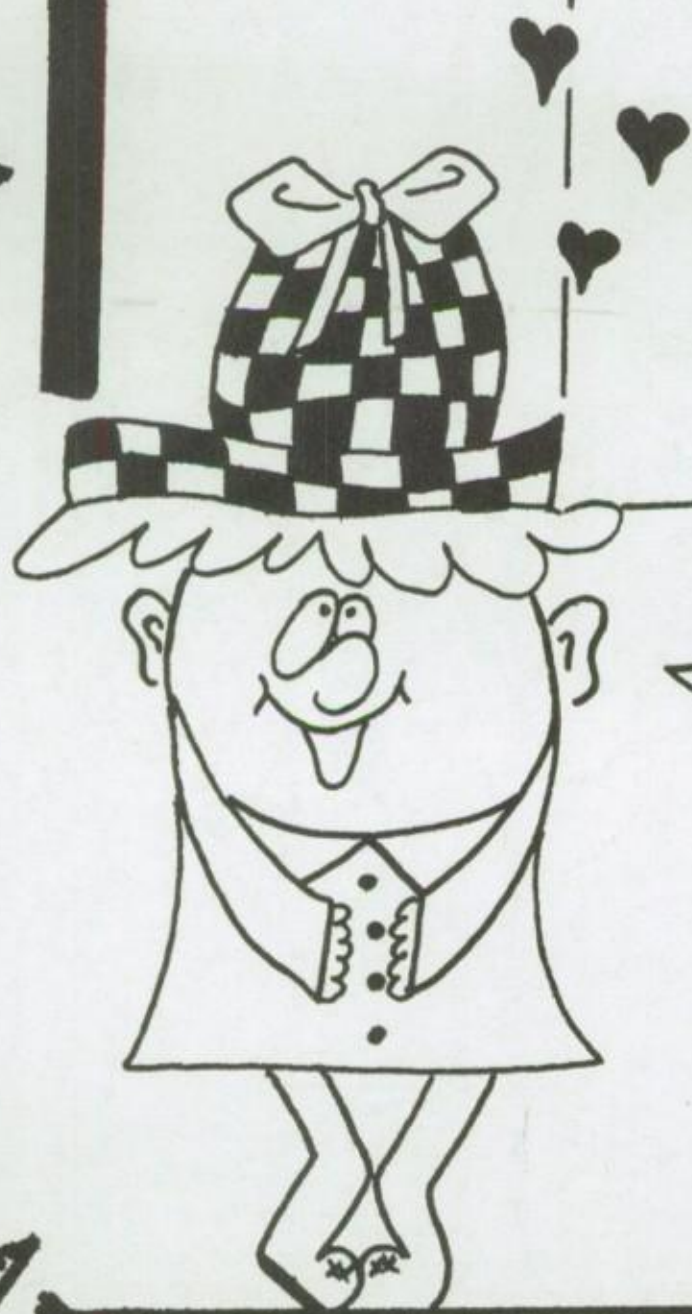

*Thank you, Advertisers,  
1974 Pioneer staff wishes  
to take time out  
to thank you, the advertisers,  
for your generous support  
of our yearbook.  
Without your help  
we wouldn't have been able  
to publish  
this 256 page edition  
of the Pioneer,  
recording the events  
of the Lobos' 7th year  
of their history.  
Many thanks, again,  
Pioneer staff*

SESSION BORED

What is happening  
to the time?

It just seems to  
be drifting by,  
and I am not  
quick enough to  
catch one passing  
moment.

For time  
does not slow down  
to take even  
one deep breath.  
Relax, see what  
the world is about:  
time is a great  
healer.

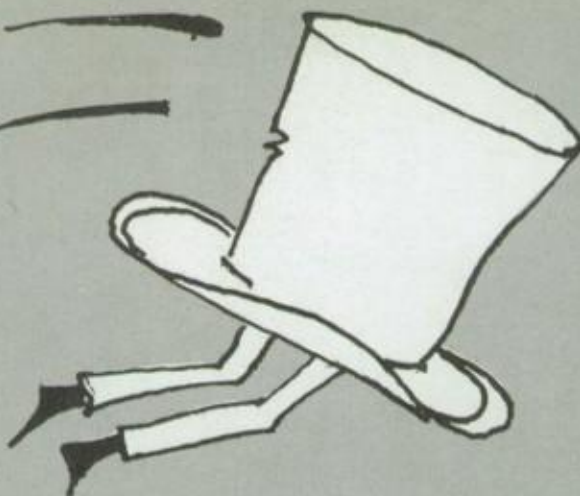

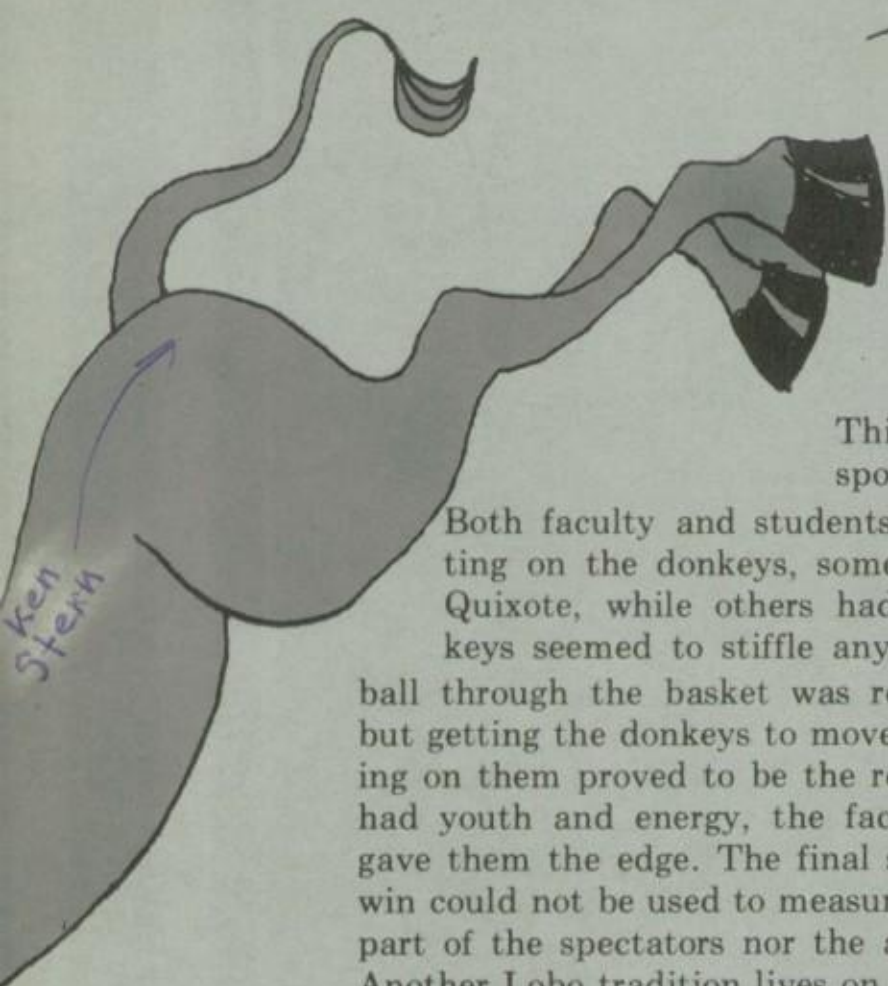

So, stay awhile  
and smile,  
while the sun is  
here.

For tomorrow's time  
will be new  
and today's time  
is already spent.

Ranelle Whitener, Class of '75.

This year's Donkey Basketball Game, sponsored by A.F.S., was hilarious.

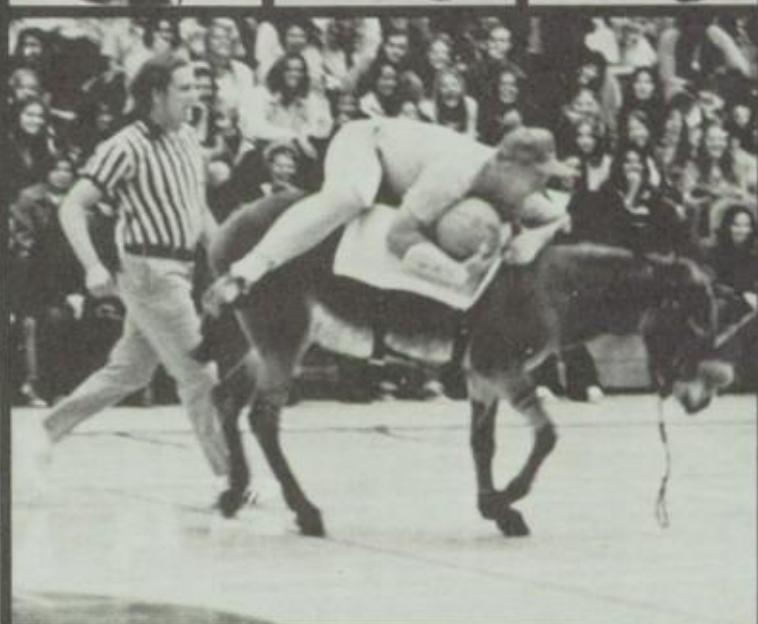

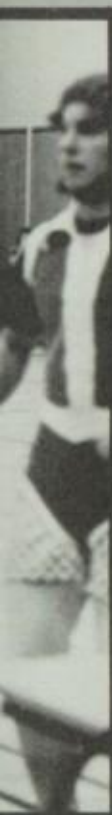

Both faculty and students had quite unusual uniforms. Sitting on the donkeys, some players were reminiscent of Don Quixote, while others had that transvistite look. The donkeys seemed to stifle any kind of coordination. Putting the ball through the basket was relatively simple, for most players, but getting the donkeys to move in the right direction and/or staying on them proved to be the real job. Although the student team had youth and energy, the faculty had the ageless wisdom that gave them the edge. The final score that recorded another faculty win could not be used to measure the amount of amusement on the part of the spectators nor the amount of money raised by A.F.S. Another Lobo tradition lives on as laughter and bumps and bruises remain in the memory until next year.

# THANK YOU!

MISS KRUPA, MR. LOE, FACULTY AND ADMINISTRATORS, MRS. STUBBE, SENIORS, BILL RISHER, SECRETARIES, STUDENT BODY, A.S.B., DON TURRIAGA, MR. ROGAN, COACHES AND ROY YOUNGBLOOD for your cooperation and help in the production of this

1974 edition of the PIONEER without whom it would never have been a reality.

MANY THANKS AGAIN!!

**-THE 1974  
PIONEER STAFF-**

PIONEER-a yearbook with infinite variations-not a mere yearbook-students, faculty, administrators, clubs, sports, assemblies, rallies and each face is part of the book.

We are part of PIONEER; PIONEER is part of us. The experiences we had, friends we made, activities we participated in and the knowledge we gained will influence our future lives. The PIONEER is not a thing, it is a thousand things-a hard working staff striving for completed deadlines, gathering information and trying to express themselves each in his own unique way. It is clubs working on their various projects; the football team making a touchdown; faculty passing knowledge to us; ASB planning assemblies; pepsters arousing spirit; the basketball team going to CIF; each and every one of us giving WHS something to be proud of.

There are so many people I'd like to thank-my staff for their patience, hard work and talent and especially to *Nora Fitzpatrick* and *Debbie Shishido* for collecting ad contacts and putting the Ad Section together; *Jim Davis* who designed the cover; my very understanding parents; coaches for giving us rosters and scores; *Miss Graves* for buying a yearbook; *Dennis Cool* who counselled me during my times of trouble; *Valerie De Winter*, *Cindy White* and *Tina Blakely* for being true friends. A special thanks to *Monica Knudson*, my assistant, who stayed many days after school completing deadlines and especially to my wonderful advisor, *Miss Mary Martha Krupa*, without whom this edition of the PIONEER would never have been possible. This doesn't even begin to include the many other people-advisors, administrators, and photographers, who generously contributed their time and energy to make this year's PIONEER the success it is.

In concluding, I'd like to say that it's been a pleasure, an honor and a privilege to serve you as Editor of the 1974 edition of the PIONEER. There are so many things to learn and ideas to be found in producing a unique yearbook that it's hard to say anything but-*THANKS!*

Have a fabulous summer and congratulations, *SENIORS!*

Vara Shishido  
Editor-in-Chief  
1974 Pioneer

Judy and Sherri — for being number one on the finish line in the Academic section — a section that sparkles with creativity and originality. You really dared to be different

Rab and Russ and Dennis — for running errands, copying layouts, filling in and helping out — with a smile, as new members

John and Ray and Shannon — for serving on the *Pioneer* staff first semester and helping get things started

Kara — for trying so hard, for remembering to smile, for your hard work on Clubs and Organizations

Monica — for an unbelievably ambitious plan for the Clubs and Organizations section, an idea that worked out so well, that it will be the despair of others who follow you. For being a person who has learned so much, so nicely

Gail and Lydia and Terry and Alisa and Juanita — for being new staff members who were willing to help out in so many ways, so graciously

Marcie and Tina — for going along with my crazy ideas about the Senior Register, for typing and checking, for a section that has dignity and aliveness

Nora — for being such an efficient Business Manager, and for training in your fantastic replacement Debbie — for receipts and telephone calls, for imagination and generosity Both of you — for an Ad section that has class

To all the staff members — thank you for putting up with me, for caring enough about Workman to want to get out this book. To each of you I dedicate the *1974 Pioneer*

Jim — for daring to try something new in Campus Life, for the cover that is nothing short of a masterpiece, for learning a great deal Cindy — for three years of generosity and hard work and patience, for receipts and layouts and dittoes and file drawers, but more than that for caring and being a lovely young woman

Vara — editors are always generous (and only sometimes crazy), but your generosity has been so efficient and so warmly given — for picking up the many loose ends, for driving everyone (including me), for insisting on the best, for photography schedules, for a happy first 16 pages, and on and on and on — BUT MOST OF ALL for growing and for learning during these three years and through it all still being able to laugh (even giggle). THANK YOU just doesn't begin to say it, but it's all I've got to offer — that and a beautiful and exciting book.

Bob,  
glad to meet you  
this year and I am  
glad to have you in my  
classes good luck next year.
